- I have reviewed the final report template in advance and am prepared to submit the final report on time.

For Digitization Projects applications

- I have contacted the WNYLRC digital services coordinator to set up a consultation to review project.

- I have Included with the grant application (either with the print or online versions) photocopies of the objects, photographs, or print material to be digitized as described in the grant application. I understand samples helps the RBDB Reading Team (the grant reviewers) are from outside the WNYLRC region and may not understand the regional value of my particular collection.

- I have indicated in the narrative how my digital collection enhances regional resource sharing because my digital project includes materials that are not readily available elsewhere, are in poor condition, and or are unique, and provide historical value to Western New York or New York in general.

- I have reviewed the collections AND images included in the collection for potential copyright infringements and can ensure that I have the digital rights to the items in the collection as described in the grant.

- Newspaper collections being loaded into New York State Historic Newspapers require page level PDFs.

- I have completed and submitted along with the grant application the Copyright and Use Agreement.

- I understand that I will not receive the final 25% of the awarded grant amount until the collection is uploaded into one or more of the following platforms: NY Heritage, NYS Historic Newspapers, Empire Archival Collaborative Discovery (EAD Finding aids).
